

**Medispo<sup>®</sup>**

**Premium**

**WE MAKE THE BEST, WE CARE THE MOST**

**WORLD'S LARGEST PRODUCER:** Guilin HBM Health Protections, Inc. is one of the top 3 producers of specialist surgical gloves in the world. Accredited to ISO EN13485 quality management systems we hold CE Mark and 510K approval for EU and USA. We have over 20 years' experience in manufacturing Surgical Gloves and support Healthcare Professionals in over 50 countries worldwide.

**CARE FOR THE ENVIRONMENT:** Located in a pristine natural environment, our local government rigorously enforces pollution controls. In response, we have developed innovative solutions to minimizing our impact on the environment. Our goal is to be carbon neutral by 2030.

- Clean energy at point of use; high-pressure steam and electricity.
- Elimination of all chlorine use in production
- We are working with local government to source energy from renewable methods.
- Our in-house E-Beam steriliser does not have the contaminated radioactive waste problems associated with gamma ray sterilisation.

**CARE FOR OUR COMMUNITY (CSR):** All workers at the factory live locally and we do not employ any immigrant work force. We offer a hygienic and safe work environment with competitive pay to attract workers and build upon our standing in the community.

**EFFICIENCY:** Our production platform uses computerized control combined with Artificial Intelligence predictive quality analytics preventing problems in advance and means our state-of-the-art facility is one of the most efficient in the world.

In-house computerised compounding of raw materials

AI Controlled dipping lines

**Medispo®**  
Premium

Robotic packing lines for high level automation

4 levels of quality control for each production lot

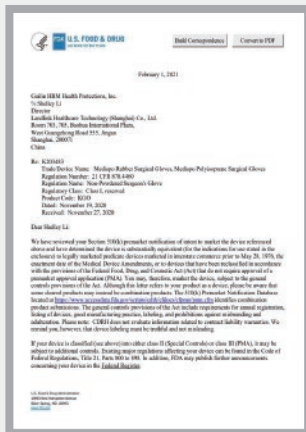

Dedicated in-house E-Beam sterilisation

Controlled environment throughout production

**Each piece of Medispo® Surgical Glove Matters**  
**WE CARE FOR EACH GLOVE WE MAKE.**

# POLYISOPRENE

## SURGICAL GLOVES

Best Performance  
Non-latex Synthetic

### Medispo® PI Features:

**Latex-free:** Super soft polyisoprene formulation that is also tough to protect you and patients from pathogens. Exceeds all strength requirements according to USA and EU International standards.

**Skin-friendly formulation:** Our unique chlorine-free formulation production processes combined with the absence of chemical accelerators known to cause allergic responses mean skin irritations are minimised or eliminated. Tested according to ISO EN 10993.

**Easy donning:** Skin friendly polymer coated for easy donning even with damp hands saving you time.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.

### Complies with the following Standards and Regulations:

Quality: ISO 9001, EN ISO 13485

Compliance EU: CE Mark, MDR, EN 455 1-4, EN ISO 374 1-5

Compliance USA: 510K, ASTM D3577

Environment: EN ISO 14001:2015

# MEDISPO® TPC

LATEX SURGICAL GLOVES

Powder Free Latex  
Our Best Value Product

## Medispo® TPC Features:

**Comfort, dexterity and protection:** Building upon 20 years feedback from our customers HBM have designed a new mould to better fit with clinician's hands. Our new mould offers high-level comfort and dexterity. You may use Medispo TPC as your only glove, or as an overglove when double-gloving with a Medispo Latex Underglove to help protect you and your patients with perforation detection.

**Protection:** Computer control and predictive quality analytics (AI) mean that each glove undergoes rigorous quality controls before release. In addition, each glove is 100% air-leaked and visually inspected.

**Skin-friendly formulation:** Our unique chlorine-free formulation production processes combined with the absence of chemical accelerators known to cause allergic responses mean skin irritations are minimised or eliminated. Tested according to ISO EN 10993.

**Easy donning:** Skin friendly polymer coated for easy donning even with damp hands saving you time.

# DOUBLE GLOVING

LATEX SURGICAL GLOVES

Easy-don Double Gloving  
Double Layer Protection

## Medispo® Latex Double Gloving Features:

**Perforation detection:** Medispo Double Gloving There are two types of gloves inside the double layer glove packaging: one pair of Medispo Sensitive outer gloves and one pair of ½ a size larger green under gloves. Designed to be comfortable and reliable for any type of surgical procedure.

**Protection:** Computer control and predictive quality analytics (AI) mean that each glove undergoes rigorous quality controls before release. In addition, each glove is 100% air leaked and visually inspected.

**Easy donning:** Skin friendly polymer coated for easy donning even with damp hands saving you time.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.

### Complies with the following Standards and Regulations:

# SENSITIVE

## LATEX SURGICAL GLOVES

Designed For Super Sensitive  
Touch And Comfort

### Medispo® Sensitive Features:

**Sensitive tactility:** Medispo Sensitive is designed for surgeons who prefer a natural rubber latex surgical glove but demand a higher tactile sensitivity.

**Skin-friendly formulation:** Our unique chlorine-free formulation production processes combined with the absence of chemical accelerators known to cause allergic responses mean skin irritations are minimised or eliminated. Tested according to ISO EN 10993.

**Easy donning:** Skin friendly polymer coated for easy donning even with damp hands saving you time.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.

# ORTHOPAEDIC

## LATEX SURGICAL GLOVES

Thicker And Stronger For  
Added Protection

### Medispo® Orthopaedic Features:

**Robust protection:** Medispo Orthopaedic is our thickest glove in the latex portfolio. Our proprietary mould and microtextured finish delivers comfort with tactile sensitivity. Warm brown colour reduces glare from surgical lighting.

**Skin-friendly formulation:** Our unique chlorine-free formulation production processes combined with the absence of chemical accelerators known to cause allergic responses mean skin irritations are minimised or eliminated. Tested according to ISO EN 10993.

**Easy donning:** Skin friendly polymer coated for easy donning even with damp hands saving you time.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.

# PRISTINE™

## LATEX SURGICAL GLOVES

Super-soft, Strong and Comfortable  
Ideal Companion For Medispo  
Latex Underglove

### Medispo® PRISTINE™ Features:

**Soft and tough:** Medispo Pristine™ is our softest formulation glove, and delivers an enhanced level of comfort and tactility. The proprietary formulation of Pristine™ has been developed by our research and development team over several years and delivers a tough, robust glove with remarkable tensile strength and force at break.

**Ideal double-glove companion:** Medispo Pristine™ combined with Medispo green under-gloves offer an ideal combination for hole detection in the outer glove. Medispo double gloving system offers world leading protection and optimal comfort levels available. Medispo double gloving system is easy to don yet locks in place and behaves like one glove.

**Skin-friendly formulation:** Our unique chlorine-free formulation production processes combined with the absence of chemical accelerators known to cause allergic responses mean skin irritations are minimised or eliminated. Tested according to ISO EN 10993.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.

# MEDISPO<sup>®</sup> POWDERED

## LATEX SURGICAL GLOVES

Powdered Latex  
Essential Product

### Medispo<sup>®</sup> Powdered Features:

**Comfort, dexterity and protection:** Building upon 20 years feedback from our customers HBM have designed a new mould to better fit with clinician's hands. Our new mould offers high-level comfort and dexterity. You may use Medispo Powdered as your good choose glove, or as an overglove when double-gloving with a Medispo Latex Underglove to help protect you and your patients with perforation detection.

**Protection:** Computer control and predictive quality analytics (AI) mean that each glove undergoes rigorous quality controls before release. In addition, each glove is 100% air-leaked and visually inspected.

**Consistent calibrated grip:** The outer surface of Medispo surgical gloves are specially treated to provide a consistent grip. The grip is monitored and controlled during production and each lot must pass stringent internal grip controls before being released.
